Corinthians 16:14 'Let all that you do be done in love'

Head Teacher: Mr P Wilson

Thursday 13th July 2023

Dear Parents and Carers,

Re: Building Work Update

We hope this letter finds you well. We would like to take this opportunity to inform you about some upcoming building work that will be taking place during the autumn term at our school. We understand the importance of keeping you informed about any changes that may affect your children's learning environment.

To ensure the safety and comfort of our children, it has been decided that our school's roof needs to be replaced within the KS2 area of the school. This essential maintenance work will begin during the summer holidays and is expected to be completed before the start of the autumn term. We have taken this opportunity to schedule additional work to address any damp issues within the school premises, which will take place following the roof repairs.

During this period, there may be some temporary disruption in certain areas of the school (particularly in KS2), which may require some of the children to be temporarily relocated to alternative classrooms. We understand that this may cause inconvenience, but we assure you that it will not impact their learning experience. Our dedicated teaching staff will ensure seamless transitions and a continued focus on your children's education. The children will always arrive and leave school at the usual places, so you will not need to make any changes to your routine.

Please be assured that the utmost importance is being placed on the safety and well-being of our children throughout the duration of these works. The necessary precautions will be taken to minimise any potential risks and ensure a safe learning environment for all.

We kindly request your understanding and support during this time. Although there may be some unavoidable disruption during the first half term, we want to assure you that our commitment to your child's education remains steadfast and unwavering.

We truly appreciate your cooperation and patience as we strive to make necessary improvements to our school facilities. The progress made will undoubtedly contribute to enhancing the overall educational experience for our children.

If you have any questions or concerns regarding the upcoming building works, please do not hesitate to contact the school office. We will be more than happy to provide you with further information and address any queries you may have.
